Outbound calling in India: DLT registration guide

Agni College of Technology, Calling Agent. Prepared 2026-10-19 for Prakash D. Built from vendor and Vobiz pages; TRAI's own text was not readable for the newest amendment. Items marked **[unconfirmed]** must be checked with Vobiz or a telecom lawyer before paying or dialling.

1. Summary

- **Inbound** calls need only Vobiz KYC. DLT, 140-series and consent rules apply only when the agent places outbound calls.
- The college is a **new Vobiz account with a new number** (no transfer from the development account), registered in the college's own name.
- Admission follow-up calls will most likely count as **promotional**, so they need a **140-series** number and a DLT Principal Entity registration. **[unconfirmed]** (vendor reading, not a regulator ruling)
- The **160-series (TRAI: 1600) is not available to a college**: it is for banking, financial, insurance and government entities.
- Cold calling is prohibited. Call only people who gave explicit digital consent, and scrub against the DND register.

2. Steps, in order

Step	What	Who	Notes
1	Vobiz KYC for the college account	College	Company: PAN + GST, automated, about 2 minutes. India-registered entities only.
2	DLT Principal Entity registration	College director	Portal recommended by Vobiz: Tata Teleservices (telemarketer.tatateleservices.com). Fee about Rs 5,900 incl. GST. Documents listed for companies: certificate of incorporation, GST certificate, entity PAN, MOA with director list, Letter of Authorization signed by a listed director. A college is likely a trust/society, so the exact document set is **[unconfirmed]**: ask the portal. The mobile number and email on the letter become the permanent contact.
3	Rent a 140-series number on Vobiz	Prakash / College	Ask Vobiz for the exact sequence and whether they need the DLT entity ID linked to the number.
4	Register header and content template on DLT	College	Header = the caller identity. Template = the approved purpose (admission follow-up). Vobiz lists this as a separate compliance step.
5	Consent records and DND scrubbing	Prakash (build)	Store consent date, channel and text shown, per number. Scrub lists before every campaign.
6	Own calling rules in the dialler	Prakash (build)	9 AM to 7 PM, no Sundays, do_not_call flag honoured immediately.

3. Number series

Series	Use	Can the college use it?
91 (mobile)	Personal / business	No for commercial outreach: Vobiz treats it as a violation.
140	Promotional voice calls, any sector	Yes: expected route for admission follow-up.
Landline series	Service and transactional only; promotional prohibited	Only if a call is purely service. Admission marketing is not.

Series	Use	Can the college use it?
160 / 1600	Service and transactional, BFSI and government	No.

4. Consent and Do Not Disturb

- Explicit digital consent is required before commercial calls; calls without it are unsolicited commercial communication (UCC).
- Vobiz asks for consent proof no older than **6 months**: date, channel, and the consent text shown.
- Consent tied to an enquiry callback may last only **7 days** under the February 2025 amendment. **[unconfirmed]** Use 7 days as the safe limit until checked.
- After an opt-out, do not ask again for 90 days. **[unconfirmed]**
- Education is a DND category. A subscriber who blocks it will not receive 140-series calls from that sector, unless they gave explicit consent through a recognised digital process.
- Callers under 18 need verifiable parental consent under the DPDP Rules, applying from 14 May 2027 (per a vendor summary).
- Vobiz scrubs against the DND register and logs blocked attempts, but says you should scrub your lists too.

5. Penalties

Event	Consequence (Vobiz UCC page)
Complaint, no consent proof within 24 hours	Compliance ID blocked. Notices arrive at 0, 6, 12 and 24 hours.
First violation: 5 or more unique complaints in 10 days	15-day suspension of outgoing calls.
Second violation	1-year TRAI blacklisting across all Indian operators; trunks disconnected.

6. Calling hours

Vendor pages state 9 AM to 9 PM for commercial calls **[unconfirmed]**. Our own window, 9 AM to 7 PM with no Sundays, is stricter and stays.

7. Not yet verified

- TRAI's Telecom Commercial Communication Customer Preference (Third Amendment) Regulations, 2026 (consent, headers, templates): published September 2026, scan not readable. Have someone read it before launch.
- Whether AI-voice calls have extra disclosure rules. One vendor claims so without citing TRAI. Our greeting already says it is Agni AI.
- DLT processing times (vendors say 1 to 7 working days) and header/template fees.

8. Questions to ask Vobiz support

1. What is the exact sequence and timeline to get a 140-series number on a college (trust/society) account?
2. Do you need our DLT Principal Entity ID, header or template ID linked to the number?
3. Does an admission follow-up call to a website enquirer count as promotional (140) or service (landline series)?
4. Which consent proof do you want for enquiry-form leads, and in what format?
5. Can the dialler use your DND scrubbing, or must we scrub separately?
